

PINNACLE EDGELIT L.E.D. EXIT SIGN

The aesthetically appealing Pinnacle edge lit exit sign is available in AC only or self powered units. Energy saving LED's consume less than 3 watts for AC only / less than 8 watts for self powered operation. 20 gauge epoxy coated steel back box. Mounting options include ceiling recessed, wall recessed, wall surface, or ceiling surface mount.

FEATURES

- Clear acrylic panel with polished edges, aluminum or white separate plates supplied with double faced exits.
- Self powered version features sealed maintenance free nickel cadmium battery with 7 year life expectancy.
- AC lockout installation feature and low voltage disconnect.
- AC indicator light and test switch, solid state charging circuitry, for self powered units.

WARRANTY

All PINNACLE fixtures are warranted to be free from manufacturing defects and workmanship for a period of one year. The batteries are pro-rated for a 5 year period when operated at normal ambient temperatures.
